LEISURELY LUXURY

AWARD-WINNING SINGAPORE-BASED INTERIOR DESIGN STUDIO, LTW DESIGNWORKS, HAS UNVEILED ITS DESIGN OF THE GRAND HYATT SANYA HAITANG BAY RESORT AND SPA IN CHINA.

Spanning across 190,000 square metres, the Grand Hyatt Sanya Haitang Bay Resort and Spa signals the hotel group's first beach resort in China. To mark this auspicious milestone, the group has commissioned award-winning Singapore-based interior design studio, LTW Designworks, to design the hotel's public areas, guestrooms, suites, spa and restaurant. Capturing Grand Hyatt's luxurious brand identity, the architectural design of the hotel features a modern interpretation of rectangular Chinese lanterns that is both striking and opulent. Its circular lobby is anchored by large columns and a domed ceiling as LTW Designworks has chosen a warm colour palette and natural materials to create an elegant yet inviting design. Meanwhile, the guestrooms are provided with an elegant and contemporary design that emphasises on spacious layouts and unobstructed picturesque views of the ocean, garden or mountains. Raw textured materials and natural palettes are also applied in the rooms as traditional local artwork and bespoke wall coverings infused local flavours into its design.
